Server Introduction :

Overview

{}

Key Benefits :

Description :

fetch the vehicle information by vehicle number /rc with owner mobile number

API Document Summary

API Name	Category	Version
----------	----------	---------

RC Premium V2

v1.0

HTTP Method

POST

Endpoint

/Rc-Premium -v2 -verify

Last Updated

Base URL

UAT Environment

<https://javabackend.idspay.in/api/v1/prod>

Production Environment

<https://javabackend.idspay.in/api/v1/uat>

API Endpoint

/Rc-Premium -v2 -verify

Request Sample

```
{
  "api_id": "APIXXXX",
  "api_key": "XXXX-XXX-XXX-XXX-XXXX",
  "token_id": "XXXXXX",
  "vehicle_num": "GJ08XXXXX"
}
```

Response Sample

```
{
  "status": {
```

```
